

**SCHOOL BUS SCHEDULING AND ROUTING**

School bus routes shall be reviewed at reasonably frequent intervals, but at least once each year for safety hazards and to assure the efficient use of buses. School administrators work with the Director of Transportation to evaluate the safety of students at bus stops periodically, and report the results to the School Board annually.

A written vehicular and pedestrian traffic control plan for each school shall be reviewed annually for safety hazards. All new school site plans shall include provisions that promote vehicular and pedestrian safety.
