<sup>1</sup>Includes all capacity projects as recommended by the Task Force with contingency added based on percentages recommended in the Task Force's Facilities CIP B for contingency of projects. It does not assume that any planning or land acquisition dollars were specifically recommended for ACPS use, though these funds were recommended to be split between the entities as needed.

<sup>2</sup>Because planning and property acquisition dollars are to be allocated for both City and Schools facilities projects, this shows variance of Superintendent's proposed projects excluding planning and property acquisition, with the Task Force's recommendation specifically for ACPS.
