BACKGROUND

The High School Project began in the summer of 2018 and has progressed steadily throughout the past year. On January 24, 2019, the School Board voted to continue the High School Project work with a focus on several priorities and a commitment to a multi-option evaluation process. This work has since developed into an expanded project team including additional consultant support as well as the establishment of an Educational Design Team (EDT). This brief includes meeting minutes from the High School Project progress meeting of the full project team conducted on July 15, 2019.

SUMMARY

As a part of the coordinated effort to manage the High School Project, regular meetings are conducted to address the range of issues including, but not limited to, educational programming, site investigation and evaluation, environmental planning, financial modeling, and schedule.

ACPS staff members, the project team of consultants, and City of Alexandria's Planning and Zoning, Recreation Parks and Cultural Activities, and Transportation and Environmental Services Departments all participate regularly in these progress meetings. This brief includes minutes from the meeting on July 15, 2019.

RECOMMENDATION

The Superintendent recommends that the School Board review the High School Project on a regular basis to stay current with project's progress. The project team will respond to and accommodate Board inquiries on an as needed basis.
