

Traditional Calendar -368 Responses

Version 1 closely follows the structure of the current year calendar and features eight week days off for Winter Break and a last day of school on Thursday, June 18. Version 2 is similar to Version 1 in most respects, with two differences: 1. Winter Break -instead of eight week days off, there is a full two week break. 2. The last day of school is Monday, June 22.

We are asking for feedback on a possible change in 2020-2021 to an academic calendar based on 990 hours instead of 183 days. The result would be a reduction in the number of student days and an increase in the number of professional development/teacher work days. Would you support a change to hours which results in fewer student days?
